

## ***Interest in WaterWorks Assessment Deadline***

At present time, we have 8 municipalities who are interested in going in on a bulk buy for their Water Works Assessment this year. The list is as follows:

1. Town of Hanley
2. Village of Lucky Lake
3. Town of Davidson
4. Village of Elbow?
5. Town of Delisle?
6. Village of Glenside
7. Village of Strongfield
8. Village of Hawarden

The logic behind this program is that the more municipalities, the more cost savings per municipality. Since this assessment is quite expensive for most urban communities in our region, there has been interest in going in on a group purchase. **No one** on this list is locked into any agreement, we are just looking into the amount of savings.

Once we find out the possible savings, you will all be notified and then have your opportunity to stay in or not; mind you, leaving the group will most likely increase the cost.

We would like to have all municipalities interested in this potential program to let me know no later than Tuesday March 9<sup>th</sup>.
